

ST PRIMER – 619

Exposed Concrete Primer

DESCRIPTION:

Water based, acrylic emulsion based, exposed concrete primer.

ADVANTAGES:

It increase adherence of the plaster that is applied on the concrete.

Increases especially the processing time gypsum plaster and cement.

Easy to apply.

Prevents rapid water loss of plasters.

USAGE AREAS:

Before plaster

Before cement based plaster

Horizontal and vertical surfaces

TECHNICAL SPESIFICATION :

(23 °C Temperature and 50 % for relative humidity)

Application Temperature : +5 - +30 °C

Waste : 0,200 Kg/m²

Color : White-After drying transparent

Drying Time : 1-2 hour

Doing Plaster On : 24 hours

***These values were obtained as a result of laboratory tests, just contain finished applications according to drying time

performance. Due to differences in temperature and humidity values in the construction site, the values may change.

APPLICATION METHOD:

Surface Preparation:

The surface; must be cured, dry and durable. Loose surface mortar and such as residues should be cleaned and reached durable surface.

In case of the necessity the surface should cleaned mechanically.

Oil, grease, dirt, paint, salt and vomiting that prevent adhesion should be removed.
